Fisheries Review

Paul C. Purdy, Editor

Office of Information Transfer
Editorial Section
U.S. Fish and Wildlife Service
1025 Pennock Place
Fort Collins, Colorado 80524

Fisheries Review is intended to furnish fishery biologists with abstracts of current literature in sport fishery research and management.

One volume, consisting of four numbers, is issued each year. Each number contains separate Author, Geographic, and Taxonomic, and Subject indexes, and a list of publications screened. Authors who publish in journals not screened for *Fisheries Review*, and who would like their publications included, should submit abstracts to the Editor.

The U.S. Fish and Wildlife Service assumes no responsibility for the accuracy of material from outside sources, and can only supply copies of articles written and published by the U.S. Fish and Wildlife Service.

Fisheries Review

VOL. 33, NO. 1 1988

CONTENTS

AQUATIC PLANTS AND THEIR CONTROL..... 1

CULTURE AND PROPAGATION

General Fish Culture..... 1
Trout and Salmon Culture..... 4
Warmwater Culture..... 6
Mariculture..... 15

LIMNOLOGY AND OCEANOGRAPHY

General..... 18
Physical..... 18
Chemical..... 18
Plankton..... 19
Primary Production..... 19

MORPHOLOGY, PHYSIOLOGY, GENETICS AND BEHAVIOR

Morphology..... 19
Physiology..... 24
Genetics, Variation Studies, Hybridization..... 49
Behavior..... 52

NATURAL HISTORY

Life Histories - General Works..... 58
Population Studies - Production, Standing Crop, Recruitment. 61
Spawning Habits and Movements, Sex Ratios, Fecundity, etc... 67
Movements, Seasonal and Depth Distribution, etc..... 68
Foods and Feeding..... 68
Age and Growth..... 71
Geographical Distribution, Fish surveys, etc..... 72
Abundance, Factors of; Survival and Mortality..... 75
Identification, Keys, Classification..... 76

PARASITES AND DISEASES

General..... 77
Bacterial..... 78
Fungal..... 81
Protozoan..... 81
Viral..... 82
Other..... 83

POLLUTION AND TOXICOLOGY

Pollution..... 87
Toxicology; Bioassays..... 90

RESEARCH AND MANAGEMENT

General..... 93
Habitat Alterations..... 95
Harvest, Creel Census, etc..... 96
Regulations..... 97
Marking and Tagging..... 97
Stocking and Introductions..... 99
Fishing Gear and Techniques..... 100
Fishways, Fish Passage Through Dams, etc..... 101
Mathematical, Statistical Methods and Modeling..... 102
Lake Management and Research..... 104
River and Stream Management and Research..... 107
Large Impoundment Management and Research..... 111
Estuary Management and Research..... 111
Marine Management and Research..... 112
Utilization of Fishery Products..... 122
Miscellaneous Techniques and Equipment..... 122
Reviews, Bibliographies, etc..... 122
Miscellaneous..... 123

AUTHOR INDEX (Salmon)..... 125
GEOGRAPHIC INDEX (Yellow)..... 155
SYSTEMATIC INDEX (Blue)..... 161

AVAILABILITY OF REPRINTS AND PUBLICATIONS

Fisheries Review does not distribute any of the papers cited herein, nor can the editor of *Fisheries Review* obtain copies of these papers for anyone. A reprint of an article published in a journal may be available from the author, from the organization with which the author is affiliated, or from the publisher of the journal in which the article appeared. When an author's address is known, it is shown in square brackets following the citation. Addresses of most wildlife organizations can be obtained from the *Conservation Directory*, an annual publication available from the National Wildlife Federation, 1412 16th St., N.W., Washington, D.C. 20036. This directory lists more than 900 agencies and organizations concerned with natural resources use.

Camera-ready copy for this issue of *Fisheries Review* has been generated by computer programs developed by the Data Base Section, U.S. Fish and Wildlife Service, Office of Information Transfer, 1025 Pennock Place, Fort Collins, CO 80524.

As the Nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering the wisest use of our land and water resources, protecting our fish and wildlife, preserving the environmental and cultural values of our national parks and historical places, and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to assure that their development is in the best interests of all our people. The Department also has a major responsibility for American Indian reservation communities and for people who live in island territories under U.S. administration.
